Command Post Computer Mounting System

- **Maximize space:** Easily add workstations regardless of desk space limitations
- **Customizable design:** Infinitely configurable with monitor and keyboard arms, CPUs, and workflow-specific accessories
- **User Comfort:** Compatible with Ergotron's suite of industry leading ergonomic arms
- **Durable materials:** Heavy-duty steel construction and hardware
- **Neat look:** Integrated cable management hides cords for an easy-to-clean solution
- **Versatile installation:** Mounts to the floor or load-bearing ceiling

CABLE
MANAGEMENT

COMPLETE WORKFLOW EFFICIENCY

Eliminate wasted time and workflow inefficiencies with a workstation that's right where it's needed. The Command Post Computer Mounting System's compact design ensures it fits in almost any space. The rugged construction and versatile floor or ceiling installation maximizes options for power access and eliminates the need for costly remodels. The ergonomic accessory options place technology within comfortable reach for workers in any environment.

Configured for every user and space

Manufacturing environments are as unique as individuals, requiring workstations that are adjustable and within reach. The Command Post Computer Mounting System is up to the task: infinitely configurable with workflow-specific technology and adjustable to each user.

- **Command Post** The central attachment interface for the system. Constructed from heavy-duty 11-gauge steel for long-lasting durability. Designed with integrated cable management to route and hide cords.
- **Command Base** Attaches the Command Post to a horizontal surface and mounts to solid flooring or load-bearing ceiling infrastructure.
- **Command Post Bracket for CPU Holders** Attaches a CPU Holder to the Command Post. Order one bracket per computer being mounted to the post.
- **Command Post Bracket for Combo Arms** Attaches Ergotron Sit-Stand Combo Arms, their Extenders, and CPU Holders to the Command Post. Mounts can be attached simultaneously to either side: ideal for a Combo Arm paired with a CPU Holder.
- **Command Post Bracket for Arms and Pivots** Attaches Ergotron 100 Series, 200 Series, 400 Series, and LX arms and pivots to the Command Post. Mounts can be attached simultaneously to either side; two monitor arms can be installed back to back.

How to configure

Begin with the Command Post and Command Post Base, then select from Ergotron's broad portfolio of professional-grade monitor arms, keyboard arms, and CPU holders. Attaching components is a breeze with the corresponding Command Post Bracket.

COMMAND POST SYSTEM COMPONENTS (SOLD SEPARATELY)

	Post	Base	Bracket for CPU Holders	Bracket for Arms and Pivots	Bracket for Combo Arms	Hardware Kit for Concrete
Part # (color)	20-076-100 (White)	60-360-100 (White)	60-158-100 (White)	60-366-100 (White)	60-154-100 (White)	90-018 (White)
